📍 Mirpur, Dhaka, 1216, Bangladesh

PROFESSIONAL SUMMERY

As a front-end web developer, I excel at designing visually appealing and user-friendly websites and web applications. I am proficient in HTML, CSS, JavaScript, and the ReactJS library, allowing me to create reusable components for efficient development. Additionally, I have experience working with the NextJS framework to build SEO-friendly, responsive, and full-stack web applications. I am a quick learner and can adapt to new technologies, dedicated to delivering high-quality work and staying up-to-date with the latest industry trends.
